DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1,4, and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Klingal'086.

Klingal discloses a grit blasting assembly for use with a grit blasting machine, the assembly comprising: a movable bracket (37) having means to removably secure a nozzle assembly therein (clamp means), and to repeatably position the nozzle therein in a substantially identical manner, the movable bracket being slidably moveable(through member 36) within a range of desired distance from a workpiece; and means(36) for repeatedly and precisely positioning the nozzle substantially at a desired distance from the workpiece.

Regarding claim 4, as broadly recited, the bracket and the nozzle assembly inherently have corresponding alignment guide surfaces on the nozzle assembly.

Regarding claim 14, the engaging portion is element 36, and the first arm is element 37.

Allowable Subject Matter

Claims 8-13 are allowed.

Art Unit: 3724

Claims 2,3,5-7, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
